CITY OF BARTLESVILLE, OKLAHOMA
BIDS FOR -
PLANT MIX BITUMINOUS BASES AND SURFACES
ASPHALTIC CONCRETE, AGGREGATE BASE, AND SAND
BID # 2019-2020-006

SCOPE

These specifications covers the materials, purchasing requirements, mix designs, proportioning, sampling and testing methods, and mix tolerances for plant mixed bases and surfaces that will be used by the City of Bartlesville.

MIXING PLANT REQUIREMENTS

Mixing plants shall meet the requirement of the American Society for Testing and Materials (ASTM) and standard specification of State Highway and Transportation Officials M 156 (AASHTO M 156). The City of Bartlesville shall be furnished a copy of the plants job-mix formulas. The formulas shall be dated and shall not be more than six (6) months past dated.

MIXTURES

All mixtures shall meet or exceed the requirements of the City Street Specifications Section 705. The City may require the mixtures to meet any or all parts of the Oklahoma Department of Transportation Standard Specifications for Highway Construction Section 708 (ODOT-708). The mixture shall be produced using ASTM D 3515 as a guide reference. The bituminous mixtures shall be classified as Type A, Type B or Type C in accordance with ODOT specifications.

PAYMENT

Payments will be made per ton of Type A, B, or C bituminous concrete mixture. Bids shall be per ton of mixture at the mixing plant. Bids shall state where the plant is located and if requested transportation costs shall be furnished.

STANDARD SPECIFICATIONS AND REFERENCES

All standards and references used in these specifications may be examined at the City Clerk's Office, City Engineer's Office, or may be obtained from the appropriate standards organizations.

THE CITY OF BARTLESVILLE RESERVES THE RIGHT TO ACCEPT OR REJECT ANY OR ALL BIDS OR PORTIONS THEREOF.

PART II
AGGREGATE BASE

The aggregate shall be practically free from vegetable or other deleterious substances. Course aggregate (material retained on a No. 10 sieve) shall consist of sound, tough durable fragments of gravel, stone, crushed concrete, or a combination thereof. Fine aggregate shall be sand, stone dust, or other inert finely divided mineral matter.

The aggregate retained on the 3/8" sieve shall have a percent of wear, Los Angeles Abrasion Test, of note more than 60.

Materials, which contain particles of rock, lumps of clay or conglomerated material shall not be loaded into vehicles for delivery to the road.

The samples taken from the trucks or windows shall conform to the following graduation limits by weight.

SIEVE	TYPE A	TYPE B	SCREENINGS
3 inch	100	100	100
1 1/2 inch	100	40-100	100
3/4 inch	40-100	30-75	75-10
