

SIGN PERMIT REQUIREMENTS

(For permanent signs)

DRAWING SUBMITTAL: Two (2) copies of complete set of drawings are required for plan review. Drawings must be submitted along with a completed permit application form (attached).

NECESSARY DRAWINGS: The following is a general outline of the drawings necessary for plan review (staff may request additional information as necessary).

1. Site plan (including location of the sign in relation to any buildings on the site, location to property lines, and scaled dimensions);
2. Drawing or photograph of the proposed sign, including wording on sign, size in square feet of sign, and overall dimensions of sign.
3. Details and specifications on how the sign will be anchored in place.
4. Wind loads calculations and certifications: to withstand a horizontal wind pressure of not less than 30 pounds per square foot of surface exposed for roof signs and projecting signs, or not less than 20 pounds per square foot of surface exposed for freestanding signs.

FEE:

Consolidated Sign Plan	\$100 flat fee
Attached Signs	\$50.00 per sign
Freestanding Signs:	
- Up to 20-feet in height	\$50.00 per sign
- For every foot over 20-feet	\$20.00 up to the maximum of 30 feet

NOTE:

1. Permit fee is non-refundable.
2. Drawings must be drawn to scale, dimensioned and of sufficient clarity and accompanied by a permit application. Insufficient plans will not be accepted for review.
3. City ordinance requires that the installation of a permanent sign be done only by a sign contractor licensed to do business in the City of Bartlesville. The contractor is responsible for requesting and completing all required inspections.
4. Signs with electricity require a separate electric permit issued to an electrical contractor licensed to do business in the City of Bartlesville.
5. The maximum sign area permitted for a site is computed as the combined area of all sign faces counting one side of a double-sided sign. As such, information must be provided with your application on the area in square feet of all existing sign faces already located upon the site. Without this information, your permit cannot be issued.

Important Information to Applicants, Property Owners, and Sign Companies:

- Applications will NOT be accepted without all required supporting documents.
- No sign may be erected, altered or relocated without a required permit being approved and issued by the City of Bartlesville. **This means that no sign may be constructed or installed prior to the permit being approved and issued!** Any violation of this code may result in fines up to \$500.
- A sign permit application must be completed for each sign.
- Drawings or plats of survey submitted for freestanding signs must contain exact dimensions of setbacks from property lines and adjacent rights-of-way, and linear feet of property and building adjacent to roadways.
- All submitted drawings must be drawn to a common scale.
- If for some reason your plans change and you will not be installing the sign after it is approved, you must contact us at 918-338-4244 to let us know so that the file can be closed out.
- Properly completing the application and ensuring that all information contained therein and on all supporting documents is accurate will speed up the review process and approval of your permit.

Required Signatures:

The undersigned agrees that the proposed sign, described in this application, for which this permit is applied for will be constructed in all respects in accordance with the plans and specifications submitted herewith, and in accordance with the provisions and regulations of the City of Bartlesville Municipal Code applicable thereto in force when construction is commenced and further agrees that in the event of any variance or conflict between the plans and specifications submitted herewith, and the provisions or regulations of said ordinances and/or codes pertaining to such construction, that the provisions or regulations contained in said ordinances shall govern and shall be followed.
