Open Meetings Act Compliance (25 O.S. Sec. 301 *et seq.*): all discussion items are subject to possible action by the City Council. Official action can only be taken on items which appear on the agenda. The City Council may adopt, approve, ratify, deny, defer, recommend, amend, strike, or continue any agenda item. When more information is needed to act on an item, the City Council may refer the matter to the City Manager, Staff or City Attorney, or back to a committee or other recommending body. Under certain circumstance, items are deferred to a specific later date or stricken from the agenda entirely. Agenda items requiring a public hearing as required by law will be so noted. The City Council may at their discretion change the order of the business agenda items. City of Bartlesville encourages participation from all its citizens. If participation at any public meeting is not possible due to a disability, notification to the city Clerk at least one working day prior to the scheduled meeting is encouraged to make the necessary accommodations. The City may waive this rule if signing is not the necessary accommodation.

I. SUBJECT, ATTACHMENTS, AND BACKGROUND

Discuss and take action to award water line and wastewater line material bids for the Water Distribution and Wastewater Maintenance departments, presented by Loren Roszel.

Bid tabulations

II. STAFF COMMENTS AND ANALYSIS

Bids for water and wastewater materials are taken on an annual basis. Due to volatilities in the supply market, the bid was structured for a 6-month price guarantee with the option for one 6-month renewal upon mutual agreement of both the City and vendor. Bid packets were advertised in the local newspaper, Construct Connect, SW Construction News, Dodge Bidding and sent to 13 vendors. Five (5) bids were received. There are over 200 material items requested for bid, which are shown by the attached bid tabulation. The quantities within the tabulation are estimates of materials for the coming fiscal year. Materials are purchased on an as needed basis to repair and maintain the water distribution and wastewater collection systems.

III. BUDGET IMPACT

The budget for water distribution repair materials is \$525,000. The total bid price for is \$365,003.99, which represents an 8% decrease from last fiscal year, and is \$159,996.01 below the available budget.

The budget for wastewater maintenance repair materials is \$50,000. The total bid price is \$29,428.61, which represents a 20% decrease from last fiscal year. The material bid for wastewater maintenance is \$20,571.39 below the available operating budget.

IV. RECOMMENDED ACTION

Staff recommends award to the vendor who submitted the low bid meeting specifications, which are highlighted within the attached bid tabulation.

I. SUBJECT, ATTACHMENTS, AND BACKGROUND

Discuss and take action to award water treatment chemicals for the Water Treatment Plant, presented by Loren Roszel.

Bid tabulation

II. STAFF COMMENTS AND ANALYSIS

Bids for water treatment chemicals are taken on an annual basis. Due to volatilities in the chemical market, the bid was structured for a 90-day price guarantee with the option for up to three 90-day renewals upon mutual agreement of both the City and vendor. Bid packets were advertised in the local newspaper, Construct Connect, SW Construction News, Dodge Bidding and sent to 23 vendors. Fifteen (15) bids were received and shown on the attached bid tabulation. Materials are purchased on an as needed basis.

III. BUDGET IMPACT

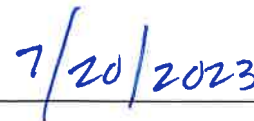

The budget for water treatment plant chemicals is \$1,091,000. The total bid price for the water treatment chemicals is \$1,225,078, which represents a 4% decrease from last fiscal year. While the bids, if held through the entire fiscal year, are over the operating budget by \$185,221, the estimated quantities are conservative and staff believes there are sufficient funds within the operating budget to move forward with the award. However, there are \$2MM in water operational reserve funds that can be utilized if needed.

IV. RECOMMENDED ACTION

Staff recommends award to the vendor who submitted the low bid meeting specifications, which are highlighted within the attached bid tabulation.

I. SUBJECT, ATTACHMENTS, AND BACKGROUND

Discuss and take action on a proposed resolution repealing the emergency water rates established by Resolution 3670

Attachments:

Resolution

II. STAFF COMMENTS AND ANALYSIS

On April 3, 2023, Council approved amendments to the Water Shortage Ordinance (3569) and a Resolution implementing the Stage 2 Emergency Water Rates (3669). Water supply levels continued to decline in April and fell below 60% the week of April 17, which triggered the Stage 3 restrictions. The Stage 3 Emergency Water Rates (3670) were approved by Council on May 15, 2023. Water supply hovered between 56% and 58% in May, June and early July. Rains on July 14 & 15 had a significant impact on the water supply. Prior to the rain on July 14, water supply was 57.1%. After the rains, water supply rose to 66.2% on July 15, 72.1% on July 17 and as of July 19, water supply is 73.5% with inflow still coming into Hulah Lake. Per the Water Shortage Ordinance, there are no restrictions or emergency water rates when water supply is between 70% to 79%, only advisories and voluntary conservation. Thus, staff is requesting that Council repeal Resolution 3670, which enacted the Stage 3 emergency water rate adjustment, and return to the normal volumetric rates. If approved, the repeal of the emergency water rates will be retroactive to July 17.
