

Oklahoma Department of Environmental Quality
Authorization to Discharge Stormwater under the OPDES General Permit OKR04
from Phase II Small Municipal Separate Storm Sewer System

Authorization No. OKR040027

In compliance with the Oklahoma Pollution Discharge Elimination System (OPDES) Act, 27A O.S. §2-6-201, the rules of the Department of Environmental Quality (DEQ), and in reliance on the certified statements and representations heretofore made in its application,

Bartlesville MS4
401 S Johnstone Ave
Bartlesville, OK 74003

is authorized to discharge stormwater from a small municipal separate storm sewer system (MS4) located in **Washington County** at the approximate geographical location: Latitude 36° 44' 59.1", Longitude -95° 58' 41.2".

The receiving bodies of water are Caney River, Rice Creek, Turkey Creek, Sand Creek, and Eliza Creek. This facility discharges into a 303(d) listed stream.

The OPDES permit requires permittee to have a Stormwater Management Program (SWMP) which must include appropriate Best Management Practices (BMPs) addressing six minimum control measures to reduce discharge of pollutants in stormwater to the maximum extent practicable to protect water quality, with implementing BMPs, monitoring, and possible reporting requirements.

All applicable requirements of the Permit are subjected to DEQ's inspections and audits.

The SWMP must be available and implemented at your small MS4.

The authorization shall become effective **August 17, 2021** and will expire at midnight May 31, 2026.

All terms and conditions of the OPDES Stormwater General Permit OKR04,
which become effective on June 1, 2021, shall apply to the recipient of this authorization.
